

I am appalled by the blatantly political decision of Sinclair Group to air the Stolen Honor "documentary" 2 weeks before the election.

Why should the company be allowed to use the public airwaves to prejudice the outcome of the election?

When I called the station in Milwaukee to complain, I was not allowed to leave a message at the number the station itself cited for commenting on the proposed broadcast!

Please represent all Americans in this decision, and not just one group.

Sincerely yours,
